

KMPP: Answer Scheme PrePSPM DC014 2024/2025

No			Answers	Marks
1	(a)	i.	Video, Series of frames containing picture and sound played back at fast rate. -Any acceptable answers (describe)_	J1 J1
		ii.	- To provide real situation to help understanding OR - To help capture attention and keep the audience engaged by showing a realistic flow of steps. -Any acceptable answers-	J2
	(b)	i.	3D, has length, width and height OR has length, width with depth	J1 J1
2	(a)	i.	- Determine what, which, when, who and how the product will be built. OR - Involves setting goals, defining the target audience, and organizing resources, which are crucial for a successful project. -Any acceptable answers-	J2
		ii.	I. Pre-Production II. Production III. Production IV. Post-Production	J1 J1 J1 J1
	(b)	i.	Icon-based. Multimedia elements and events are organized as an object in a structural framework.	J1 J1
		ii.	Time-based. Multimedia elements and events are organized along a timeline.	J1 J1
	(c)	i.	Hypermedia. - Link in non text-based document. OR - A structure of linked elements through which a user can navigate and interact. OR - Connecting the hypertext with media such as graphics, sounds and animations. -Any acceptable answers-	J1 J1

2	(d)	<table><tr><td></td><td>USB</td><td>Live Webinar</td></tr><tr><td>Ease of editing</td><td>Permanent and not changeable.</td><td>Can be changed and updated at any time.</td></tr><tr><td>Accessibility</td><td>No internet connection required to access. OR Can be accessed without the internet.</td><td>Internet connection required for live streaming.</td></tr></table> -Any acceptable answers-		USB	Live Webinar	Ease of editing	Permanent and not changeable.	Can be changed and updated at any time.	Accessibility	No internet connection required to access. OR Can be accessed without the internet.	Internet connection required for live streaming.	J1, J1 J1, J1
	USB	Live Webinar										
Ease of editing	Permanent and not changeable.	Can be changed and updated at any time.										
Accessibility	No internet connection required to access. OR Can be accessed without the internet.	Internet connection required for live streaming.										
3	(a)	Database system. Database systems help reduce data redundancy . (<i>this is actually main issue</i>)	J1 J1									
	(b)	<table><tr><th>Advantage</th><th>Disadvantage</th></tr><tr><td> • Easy to share -because data is stored in a central location. OR • High data integrity -because no data redundancy. OR • High data consistency -because no data redundancy. OR • High security -because protected by username and password. </td><td> • Very complex to build the system OR • High cost to build and maintain the system OR • Many users can access the database, leading to loss of some data. -Any acceptable answers- </td></tr></table> -Any acceptable answers-	Advantage	Disadvantage	• Easy to share -because data is stored in a central location. OR • High data integrity -because no data redundancy. OR • High data consistency -because no data redundancy. OR • High security -because protected by username and password.	• Very complex to build the system OR • High cost to build and maintain the system OR • Many users can access the database, leading to loss of some data. -Any acceptable answers-	J2, J2					
Advantage	Disadvantage											
• Easy to share -because data is stored in a central location. OR • High data integrity -because no data redundancy. OR • High data consistency -because no data redundancy. OR • High security -because protected by username and password.	• Very complex to build the system OR • High cost to build and maintain the system OR • Many users can access the database, leading to loss of some data. -Any acceptable answers-											
4	(a)	• To ensure the accuracy, completeness, and consistency of data. OR • To ensure that data remains accurate, reliable, and consistent.	J2									
	(b)	• Used to request and retrieve specific data from the database. OR • Can specify the fields to be displayed. -Any acceptable answers-	J2									

5	(a)	i.	Collaborative computing.	J1				
		ii.	Videoconferencing.	J1				
		iii	The use of networking technology to conduct real-time, face-to-face meetings between individuals physically located in different places.	J2				
	(b)	i.	<table><tr><th>Wired</th><th>Wireless</th></tr><tr><td>Use of physical media such as cable to send signals through the network.</td><td>Used of wireless medium such as air, water and vacuum to send signals through the network.</td></tr></table> -any acceptable answers-	Wired	Wireless	Use of physical media such as cable to send signals through the network.	Used of wireless medium such as air, water and vacuum to send signals through the network.	J1, J1
Wired	Wireless							
Use of physical media such as cable to send signals through the network.	Used of wireless medium such as air, water and vacuum to send signals through the network.							
		ii	Advantage: <u>High-speed data transfer</u> Disadvantage: <u>Higher cost for cabling</u>	J1 J1				
		iii	Twisted-pair cable	J1				
		iv	Consists copper wires twisted together to reduce electromagnetic interference. -Any acceptable answers-	J2				
		v	Infrared transmission. / wireless	J1				
	(c)	i.	P: Modem. Convert digital signal to analog signal and vice versa. -Any acceptable answers-	J1 J1				
		ii.	Q: Wireless Access Point (WAP) Allow wireless communication between computers and devices in a network. -Any acceptable answers-	J1 J1				
		iii	Regenerate signal before it becomes weak or corrupted. -Any acceptable answers-	J2				
6	(a)	i.	Subject Directory.	J1				
		ii	Classifies web pages in an organized set of categories and subcategories.	J2				
	(b)	i	Phrases	J1				

		ii	Field search	J1
		iii	Boolean Operators	J1
	(c)	i	Social Networking/Social Media. Online platform which people used to build social networks with other people who share similar personal interests OR Online Communication -online chat/ discussion over the Internet. -Any acceptable answers-	J1 J2
		ii	e-Commerce	J1
		iii	• Online shopping • Online banking • Online auction • Online investing -choose any two (2)-	J1 J1
	(d)	i	Managing the cookies when users view their website and webpages. OR Encompasses what information about individuals is available, how it is used, and by whom. -Any acceptable answers-	J2
		ii	Spyware and Adware	J1
		iii	• Set web browser privacy settings to private browsing OR • Use antivirus or Spyware and Adware remover to remove unwanted programs. • controlling activity logs • deleting cookies. -Any acceptable answers-	J1
	(e)	i	• Unauthorized access OR • Unauthorized login OR • Email hacker -Any acceptable answers-	J1

		ii	- Set a strong password. OR - Always enable 2 steps verification	J1
	(f)		- life becomes more convenient, less worries. - helps prevent unexpected breakdowns - ensures car and driver safety. - to alert him to potential issues before they become serious. - extends the vehicle's lifespan by keeping it in optimal condition. -Any acceptable answers-	J2
