SEMESTER I & III SESSION 2022/2023

- (d) Explain **one (1)** difference between delivery medium stated in **Table 3**.

[4 marks]

DVD	Web based

Table 3

- 3 Computer technology has been used to facilitate the storage, production and updating of data.

- (a) Explain **one(1)** difference between file processing system and the database system.

[4 marks]

File Processing System	Database System

- (b) Identify **one (1)** advantage and **one (1)** disadvantage of using database system. Write your answer in the table below.

[2 marks]

	Advantage	Disadvantage
Database System		

- 4 A database object is any defined object in a database that is used to store or reference data. Identify the database object based on the descriptions.

[4 marks]

Descriptions	Database object
A window or screen that contains various fields, or spaces to enter data.	
An organization of information or data, typically in rows and columns.

SEMESTER I & III SESSION 2022/2023

- (d) Identify network device based on the descriptions.

[4 marks]

Descriptions	Network device
Enables a computer or device that does not have built-in networking capability to access a network.	
A central communications device that allows computers and devices to transfer data wirelessly to a wired network.	
Provides a central point for cables in a network.	
A device that connects multiple computers together and transmits data to its correct destination on a network.	

- (e) Identify type of networking media based on the characteristics below. Give **one (1)** example of each.

[4 marks]

Type A : _____	Type B : _____
• The signal is broadcasted through air • Less Secure • Used for larger distances	• High Speed • Secure • Used for comparatively shorter distances
Example: _____	Example: _____

- (f) **Figure 1** shows an example of a computer network that connects group of computing resources.

[2 marks]

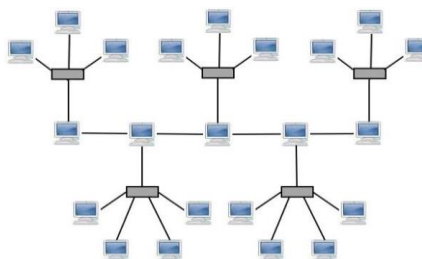

Figure 1

- (i) State **one (1)** network device in the network shown in **Figure 1**.

[1 mark]

SEMESTER I & III SESSION 2022/2023

- (ii) Give **one (1)** example of networking media that might be used in this network.
[1 mark]
-

- 6 With billions of websites online today, there is a lot of information on the Internet.
(a) Describe **two (2)** types of search tools. Give **one (1)** example for each of type.
Write your answers in **Table 5**.

[6 marks]

Search Tool	Search Engine - Keyword Search	Subject Directory - Directory Search
Description		
Example of search tool		

Table 5

- (b) Identify the search strategy based on the description.

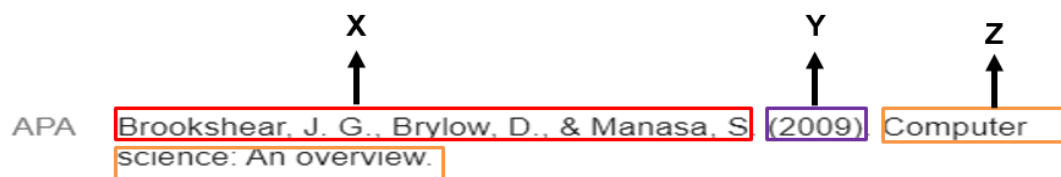

[3 marks]

Descriptions	Strategy
Use more than one keyword in a keyword search.	
AND, OR, and NOT can often be used in keyword searches.	
Limits the search to a particular search characteristic such as title or auhtor.
