

ANSWER SCHEME PREPSPM DC014 KMPP 23/24

QUESTION	ANSWER	MARKS										
1(a)(i)	Animation is a series of graphical images displayed one after another to simulate movement OR Animation is a process of making a static image look like it is moving. (Any acceptable answers)	J2										
1(a)(ii)	Animation is useful for illustrating concepts which involve movement. (Any acceptable answers)	J2										
1(b)	M: Two-dimensional (2D) consists of length and width. N: Three-dimensional (3D) consists of length, width, and height.	J1 J1										
2(a)(i)	Post-production (J1) The process after the production of multimedia projects.	J1 J1										
2(a)(ii)	<table><tr><th>Description</th><th>Activities</th></tr><tr><td>Isya is incharge of converting non digital materials into digital materials</td><td>Digitizing arts</td></tr><tr><td>Aizal needs to ensure that the multimedia product is suitable in any type of devices such as laptops, tablets and personal computers.</td><td>Testing</td></tr><tr><td>Una needs to identify how the user will interact with the interface of the multimedia product.</td><td>Define screen action</td></tr><tr><td>Haya has to make sure that the end product is at par with the storyboard.</td><td>Quality Control</td></tr></table>	Description	Activities	Isya is incharge of converting non digital materials into digital materials	Digitizing arts	Aizal needs to ensure that the multimedia product is suitable in any type of devices such as laptops, tablets and personal computers.	Testing	Una needs to identify how the user will interact with the interface of the multimedia product.	Define screen action	Haya has to make sure that the end product is at par with the storyboard.	Quality Control	J1 J1 J1 J1
Description	Activities											
Isya is incharge of converting non digital materials into digital materials	Digitizing arts											
Aizal needs to ensure that the multimedia product is suitable in any type of devices such as laptops, tablets and personal computers.	Testing											
Una needs to identify how the user will interact with the interface of the multimedia product.	Define screen action											
Haya has to make sure that the end product is at par with the storyboard.	Quality Control											
2(a)(iii)	<table><tr><td><i>The tool allows authors to synchronize and control the timing of different elements within the content, such as text, images, audio, and video.</i></td><td><i>The tool may provide templates or a blank canvas for users to arrange and design content and is often used for designing websites, digital documents, or presentations.</i></td></tr><tr><td>Time-based (J1) The multimedia elements or events are organized along a timeline (J1)</td><td>Page-based (J1) The multimedia elements or events are organized as pages of a book or a stack of a cards.(J1)</td></tr></table>	<i>The tool allows authors to synchronize and control the timing of different elements within the content, such as text, images, audio, and video.</i>	<i>The tool may provide templates or a blank canvas for users to arrange and design content and is often used for designing websites, digital documents, or presentations.</i>	Time-based (J1) The multimedia elements or events are organized along a timeline (J1)	Page-based (J1) The multimedia elements or events are organized as pages of a book or a stack of a cards.(J1)	J1, J1 J1, J1						
<i>The tool allows authors to synchronize and control the timing of different elements within the content, such as text, images, audio, and video.</i>	<i>The tool may provide templates or a blank canvas for users to arrange and design content and is often used for designing websites, digital documents, or presentations.</i>											
Time-based (J1) The multimedia elements or events are organized along a timeline (J1)	Page-based (J1) The multimedia elements or events are organized as pages of a book or a stack of a cards.(J1)											

2(a)(iv)	Connecting the hypertext with media such as graphics, sounds and animations. OR Link in non-text based document	J2									
2(b)(i)	<table><tr><td></td><td>Method 1</td><td>Method 2</td></tr><tr><td>Platform</td><td>Online</td><td>Offline</td></tr><tr><td>Speed</td><td>Fast speed of delivery</td><td>Take some time to deliver</td></tr></table>		Method 1	Method 2	Platform	Online	Offline	Speed	Fast speed of delivery	Take some time to deliver	J1, J1 J1, J1
	Method 1	Method 2									
Platform	Online	Offline									
Speed	Fast speed of delivery	Take some time to deliver									
3(a)	<table><tr><td>File Processing System</td><td>Database System</td></tr><tr><td>Higher data redundancy</td><td>Minimum data redundancy</td></tr></table>	File Processing System	Database System	Higher data redundancy	Minimum data redundancy	J1, J1					
File Processing System	Database System										
Higher data redundancy	Minimum data redundancy										
3(b)	Database system drawback: - Complex to design, implement, and manage the database - Higher cost to invest in hardware, software, and skilled personnel. - Need higher security concerns because multiple users access the database. Any acceptable answers	Choose any 2 J1, J1									
3(c)	Ensures the accuracy, completeness, and consistency of data.	J2									
4(a)	<table><tr><td>Form</td><td>Enter and edit data through a window on a screen.</td></tr><tr><td>Query</td><td>Request and retrieve specific data from the database</td></tr></table>	Form	Enter and edit data through a window on a screen.	Query	Request and retrieve specific data from the database	J1 J1					
Form	Enter and edit data through a window on a screen.										
Query	Request and retrieve specific data from the database										
4(b)	Report	J1									
4(c)	Allow users to design a report, then display or print the report.	J1									

5(a)(i)	GPS (J1) A satellite navigation system used to determine the ground position of an object. (J1)	J1 J1									
5(b)(i)	Television and Radio Broadcasting	J1									
5(b)(ii)	Telecommunications network for distribution of television programs and radio signal to public audience.	J2									
5(c)(i)	<table border="1"> <thead> <tr> <th></th><th>Wired</th><th>Wireless</th></tr> </thead> <tbody> <tr> <td>Speed of data transmission</td><td>Higher speed, no interference of weather conditions.</td><td>Lower speed affect by interference of weather conditions.</td></tr> <tr> <td>Installation cost</td><td>Cables installation are more expensive</td><td>Less cabling installation, less expensive</td></tr> </tbody> </table>		Wired	Wireless	Speed of data transmission	Higher speed, no interference of weather conditions.	Lower speed affect by interference of weather conditions.	Installation cost	Cables installation are more expensive	Less cabling installation, less expensive	J1, J1 J1, J1
	Wired	Wireless									
Speed of data transmission	Higher speed, no interference of weather conditions.	Lower speed affect by interference of weather conditions.									
Installation cost	Cables installation are more expensive	Less cabling installation, less expensive									
5(c)(ii)	Wired: twisted-pair, coaxial, fiber-optic Wireless: cellular radio, microwave and satellite, infrared	J1 J1 Choose any 1 for each type of networking media									
5(d)(i)	Router connects multiple networks and allows the networked devices and users to access the internet.	J2									
5(d)(ii)	To convert digital signal into analog signal to send over the network.	J2									
5(d)(iii)	Switch	J1									
5(d)(iv)	Connect multiple devices on the network. OR Provides a central point for cables in a network.	J2									
6(a)(i)	Search engine	J1									
6(a)(ii)	Search engine is a software that find information on the web related to a specific topic.	J2									
6(b)(i)	Using Boolean operator	J1									
6(b)(ii)	Using phrases search	J1									
6(b)(iii)	Using field searches	J1									
6(c)	Phrases search (J1) Using quotation marks around a phrase ensures that the search engine looks for the exact words entered.(J1)	J1 J1									

6(d)(i)	• Online entertainment • Online education • Social networking/social media.	J1 J1 J1						
6(d)(ii)	Transactions on online platforms such as Online Shopping, Online Banking, Online Auction, Online Investing. Or any related answers	J2						
6(e)(i)	• Web browsing privacy • Censorship • Email privacy	J1 J1 J1						
6(e)(ii)	<table border="1"><thead><tr><th></th><th>Method to improve privacy</th></tr></thead><tbody><tr><td>Spyware</td><td>Use anti virus or Spyware and Adware remover to remove unwanted programs</td></tr><tr><td>Unauthorized access</td><td>Secure confidential attachment such as using password OR Always enable 2 steps verification</td></tr></tbody></table> Or any related answers		Method to improve privacy	Spyware	Use anti virus or Spyware and Adware remover to remove unwanted programs	Unauthorized access	Secure confidential attachment such as using password OR Always enable 2 steps verification	J1 J1
	Method to improve privacy							
Spyware	Use anti virus or Spyware and Adware remover to remove unwanted programs							
Unauthorized access	Secure confidential attachment such as using password OR Always enable 2 steps verification							
6(f)(i)	• Increased Convenience: allow users to control their homes remotely.. OR • Energy Efficiency: by optimizing the use of resources. OR • Enhanced Security: provide homeowners with real-time monitoring and alerts. OR • Cost Savings: Through the optimization of energy usage, smart home devices can lead to cost savings over time. (Any acceptable answers)	J2
